VISHAL SADYAL

Freelance Full Stack Developer (React, Node.js, PHP, Joomla, Shopify, Oracle, LLM, Playwright, Android, Three.js)

Palampur, Himachal Pradesh, India | +91 98055 59015 | vdvishalwebdev@gmail.com | linkedin.com/in/vishalwebdev

SUMMARY

Full Stack Developer with 4+ years of experience building and maintaining production websites and web applications across Joomla (MVC), Shopify, WordPress, React, Node.js, PHP, and MySQL. Strong in site migrations (Joomla 3/4 to 5), theme/component customization, debugging, and delivering responsive, cross-browser user experiences. Familiar with modern full-stack tooling including Next.js, TypeScript, Docker, and CI/CD workflows. Currently building automation with Playwright, Chrome extensions, Oracle/ERP integrations, and LLM-powered workflows.

CORE SKILLS

- HTML5, CSS3, JavaScript, TypeScript
- React, Next.js, Three.js, Bootstrap, Tailwind CSS
- Cross-Browser Compatibility, UI Debugging
- Redux, React Query
- Node.js, Express.js, PHP, Python, REST APIs, MVC
- MySQL, MongoDB, PostgreSQL, Redis
- Joomla 5 (components/MVC, overrides)
- Shopify (themes/Liquid), WordPress (themes)
- Jest/RTL, Cypress, Playwright
- Chrome Extensions (Manifest V3)
- Android (Flutter, API-integrated apps)
- Oracle Database, SQL/PL-SQL
- ERP Integrations
- Browser & Process Automation
- LLMs (OpenAI/Claude APIs, prompt engineering)
- Docker/Nginx, GitHub Actions, Linux
- JWT/OAuth, Swagger/GraphQL
- Vercel/AWS/Firebase

EXPERIENCE

Software Engineer — FirstCron

Jul 2026 – Present

- Build and maintain browser automation workflows using Playwright for end-to-end testing and process automation.
- Develop Chrome extensions (Manifest V3) that automate repetitive web tasks and integrate with backend APIs.
- Work with Oracle databases and ERP systems, building integrations, data workflows, and automation around business processes.
- Integrate LLMs into automation pipelines for tasks such as data extraction, classification, and content generation.

Software Engineer — TEQTOP Agency

Apr 2024 – Jun 2026

- Develop and maintain client websites and features across Joomla 5, Shopify, and WordPress.

- Build Joomla sites from Figma to CMS, including templates, overrides, and custom functionality using Joomla MVC.
- Perform migrations and upgrades (Joomla 3/4 to 5), resolving extension compatibility and post-migration issues.
- Troubleshoot production issues: UI bugs, theme conflicts, forms, database issues, and performance-related fixes.

Web Development Specialist — Sookshum Labs

Nov 2022 – Mar 2024

- Built responsive web pages and features using HTML/CSS, JavaScript, PHP, and MySQL.
- Practiced Git-based collaboration, AJAX workflows, and Bootstrap-based UI development.
- Worked on Magento 2 fundamentals and common development tasks.

Associate Software Engineer — Coding Ninjas

Jun 2022 – Nov 2022

- Implemented Responsive and Mobile-First Design Principles.
- Worked with over 15 small scale web based projects and 2 large scale web applications.

Web Developer Internship — Internshala

Oct 2021 – Nov 2021

- Collaborated on Team Projects.
- Managed 8 mobile and web developers.
- Contributed positively to the team.

PROJECT HIGHLIGHTS

Joomla

- Dunnings: https://www.dunnings.com.au — Built site from Figma to Joomla CMS.
- Grasshopper Soccer: http://grasshoppersoccer.com.mx — Migrated Joomla 3.x to 4.5 and resolved upgrade issues.
- Rotomation: https://rotomation.com — Fixed forms (BreezingForms + JavaScript) and completed content fixes.
- Unsolved Hunts: http://unsolvedhunts.com — File upload, membership features, custom component work; Figma-to-Joomla 5 build.
- Routys Plumbing: https://routysplumbing.com.au — Migrated Joomla 3 to Joomla 5.
- WAPJA: https://wapja3.joomstore.com.au — Migrated Joomla 4 to 5 and remediated incompatible components.
- CAENO: https://caeno.org — Migrated Joomla 2.5 to Joomla 5 and fixed migration issues.
- Prism Renderings: https://www.prismrenderings.com — Upgraded to Joomla 5 and fixed migration defects.
- Seelenbegleiter: https://seelenbegleiter.net — Upgraded Joomla 4.2.1 to 4.4.5.
- Smartfrog: https://smartfrog.design/awlayout/ — Addressed MySQL-related issues and created layout overrides.
- Logistikhero: https://www.logistikhero.at/ — Added user features (video) and fixed dashboard/profile issues.

Shopify

- Zioncases: https://thecollectioncase.com — Increased swatch option limits, fixed cart issues, and updated theme snippets for app compatibility.
- Industextile: https://www.industextile.com/en/ — Migrated from Lightspeed to Shopify.
- EZ Lift Caddy: https://ezliftcaddy.com — Migrated from WordPress to Shopify.

WordPress

- Evolveenterprize: https://www.evolveenterprize.com — Implemented Figma-to-WordPress theme development.
- West Seattle Blog: https://westseattleblog.com/ — Converted Figma designs into a working theme.

Python

- **Automation Scripts (Python):** Built web scraping and data extraction scripts using BeautifulSoup and Selenium for client lead generation and content aggregation.
- **REST API (FastAPI):** Developed a FastAPI-based REST API with JWT authentication, PostgreSQL integration, and Docker deployment for a task management application.
- **AutoApplyCV.in:** Built a Python + Chrome extension tool that automates job applications on LinkedIn using browser automation, reducing repetitive manual effort.

Web Apps

- Teqtop Team Portal: https://team.teqtop.com/ — Fixed bugs and supported upgrades to newer framework versions (Laravel/Vue).
- Mobile Apps (Android/iOS): Implemented API-integrated screens and converted Figma designs to Flutter UI.
- Teqtop Team Portal Mobile: https://team.teqtop.com/ — Built multiple screens with API integration and Flutter UI from Figma.
- Teqtop Sales Portal Mobile: https://teqtop.com/ — Delivered 30+ API-integrated screens and optimized Flutter UI.
- Get3DBillboards: https://get3dbillboards.com/ — Built interactive 3D billboard experience using Three.js.
- Ultra GFX Tool (Android, Google Play Store): Developed and published an Android app on the Play Store.
- Backlink Generator: https://backlinkgenerator.in/ — Built a web tool for generating SEO backlinks.
- Shopify Theme Downloader: https://www.shopifythemedownloader.in/ — Built a web tool for downloading Shopify themes.
- PCE Gamer (React/Node.js): Add link if you want it included — Added features/levels and fixed bugs.

EDUCATION

B.Tech, Computer Science & Engineering — Himachal Pradesh Technical University, Hamirpur (Dharamshala) | 2019 – 2023

TRAINING

- Full-Stack Web Development
- Backend Web Development (Coding Ninjas, Oct 2022 – Nov 2022)
- Frontend Web Development (Internshala, Oct 2021 – Nov 2021)
